

Studying at RheinAhrCampus (Koblenz University of Applied Sciences)

M. A. in Business Administration: HEALTH CARE AND SOCIAL SERVICES MANAGEMENT, LOGISTICS AND E-BUSINESS, SPORTS MANAGEMENT

MA Degree Programme

The course will teach students consolidated business skills and prepare them for professional specialisation in one of the following major subjects: health care and social management, logistics and e-business, or sports management. In the process, business expertise and multidisciplinary management knowledge will be acquired.

Job Profiles

- With a major in logistics and e-business, graduates will be able to take up positions in companies from the sectors of industry and trade, logistics service providers and traffic management, and recycling/waste disposal or in the service sector looking at issues arising from the electronics trade or information technology.
- A major in health care and social management will qualify graduates for positions in hospitals, youth welfare facilities, care of the elderly and disabled, pharmaceutical companies and management consultancies.
- Potential areas of responsibility in sports management will present themselves at sport federations, sport associations or companies from the sport sector. In addition to this, graduates will have the possibility of entering the civil service, for example, going into government authorities and ministries.

Course Content

While the first two semesters focus on general management skills and a thorough look at core business functions, students can concentrate on their majors from the second semester of their studies. The students demonstrate their strategic strengths and their ability to apply theoretical concepts and relevant research methods in their final thesis and the final colloquy.

Practical Orientation and International Perspective

A practical phase is an integral part of the main study phase; as internationality plays an important role at RheinAhrCampus, students are encouraged to spend their practical phase abroad - either studying at one of our partner universities or experiencing business life in a firm or institution of their choice. Students learn foreign languages for professional purposes and attend a number of lectures in English. The credit point system allows the transfer of credits for academic work performed at other universities.

Admission requirements:

Exchange Students: Nomination by partner university and successful application at RheinAhrCampus.

Full-degree Students:

- Completed Bachelor or German degree (*Diplom*) with an overall mark of 2.5 or better (British equivalent: '2:1')
- Full application including statement about motivation for course and recognised documentation of German language skills (cf. online information for degree-seeking students)
